04 Supply Chain Cooperation

Leveraging our global supply chain, we empower partners worldwide with efficient cross-border trade, smart warehousing for faster turnover, digitalized multimodal logistics, and responsive local repair services. Our independent online platforms further connect digital supply and demand. Together, we aim to build a resilient ecosystem and unlock new opportunities for global growth.

01 R&D Design

Module and open-source hardware assisted design

02 Industry Consulting

Consulting on integrated solution design for the electronic information industry

03 Industry Incubation

Incubation of specialized, refined, distinctive and innovative in integrated circuits, smart hardware, and AI

04 Bidding Agency

Bidding agency services for integrated circuits, informatization construction, and high-definition display

05 Electronic Procurement Platform Integration

Electronic procurement platform

17 Exhibition Marketing

Electronic industry exhibitions such as data element exhibitions and electronics shows

18 Data Services

component supply-demand monitoring, transaction data integration

19 Testing and Certification

storage wafer/ memory chip testing

20 Financial Services

Supply chain financial products like component warehouse receipt financing

21 Inventory circulation

electronic component inventory circulation

06
Business Travel Services
Corporate business travel service platform
07
Production Service Resources
Smart manufacturing and semiconductor industry resources
08
Warehousing
Constant temperature & humidity, ESD protection, and bonded warehousing
09
Logistics Services
Precision transportation, integrated warehousing & distribution
10
Import and Export
Import & export services for consumer electronics, high-definition display, semiconductors, and information engineering
16
Energy Management
power energy management
15
International Services
EPC for international information engineering projects
14
Centralized Procurement
Electronic marketplace
13
Digital Product Services
Digital risk control products
12
Industry Distribution
Distribution of electronic components and integrated circuits
11
Industry Product Resources
Industry products for consumer electronics, high-definition display, and storage wafers
