03 Technology Cooperation

Upholding the philosophy of "openness, cooperation, innovation, and win-win," and looking forward to multi-dimensional cooperation with global partners.

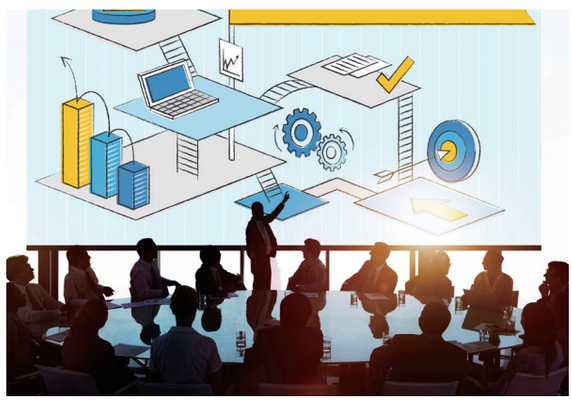

Technology Transfer

Delivering customized technical solutions, patent licensing, and process guidance to rapidly boost competitiveness.

Joint Development

Together we build platforms, share resources, and advance frontier technologies such as cutting-edge chips and industrial software.

Industry-Academia-Research Collaboration

Connecting universities and research institutes to accelerate the commercialization of technological breakthroughs

Global Industry Collaboration

Joining forces to expand markets and strengthen the stability of industry and supply chains.
