03 Consumer Electronics

Full-spectrum product lineup covering PCs, laptops, monitors, printers, 4K/8K TVs, and Dolby audio systems, backed by robust manufacturing capabilities.

The Great Wall N90F3 laptop

The Great Wall N90F3 laptop is equipped with the Feiteng Tengrui D3000M 8-core flagship processor, paired with domestically developed firmware and an independent domestic operating system. Boasting an all-magnesium alloy chassis, this device features a 14-inch ultra-high-definition 2.8K OLED display with a screen-to-body ratio of up to 92% and a body thickness of merely 14.9 mm. It integrates dual-band Wi-Fi 6, fingerprint recognition, fast charging, and supports reverse charging when powered off.

Scope of Application

It can easily adapt to a wide range of commercial office scenarios. Fully compatible with mainstream domestic browsers, office suites, audio and video players, graphic processing software and other applications, the laptop meets users' daily mobile office requirements.

Ultra-Lightweight Laptop

Ultra-slim design, stunning displays, powerful performance, and seamless connectivity. Tailored for mobile professionals, creators, and on-the-go users, delivering effortless multitasking, vivid visuals, and all-day battery life.

Scope of Application

Applicable to business office work, content creation (graphic design/video editing), remote learning, multimedia entertainment, and other scenarios.

5G Cloud Laptop

With powerful performance and seamless operation, the 5G Cloud Laptop redefines mobile productivity. It breaks collaboration barriers, enhances remote work, and elevates entertainment experiences. Combining high performance, 5G connectivity, and portability, it is the ultimate solution for work, collaboration, and leisure on the go.

Scope of Application

Applicable to business finance, education and research, creative media, government and healthcare, retail services, and other scenarios.

Desktop Computer

Adopting MODT solution and Intel high-performance processor solution, with powerful performance and energy-saving environmental protection. Compact model that can be placed upright or horizontally for easy installation. Rich interfaces with multiple front-mounted specification interfaces, energy-saving and environmentally friendly, suitable for both office work and entertainment.

Scope of Application

Suitable for enterprises, government units, educational institutions, families, and others.

Graphics Workstation

Powerful performance: professional processor, 4 professional computing cards. supports liquid cooling, hidden handle, side panel with lockable flip switch, hot-swappable hard drives. rich interfaces, multiple front high-speed storage ports.

Scope of Application

Suitable for design units, R&D departments, AI applications, etc.

Mini PC

Features strong processing, efficient multitasking, easy deployment/ maintenance, scalability & customization. easily fits various business scenarios. As a "mid-range mainstream" device, it's optimized for compact spaces (small offices, school classrooms, new retail stores), offering efficient, quiet operation with no daily performance bottlenecks.

Scope of Application

Suitable for commercial offices (reception terminals, conference systems), education (digital classrooms, lab equipment), new retail (self-ordering machines, digital signs), and industrial applications (automation control, data acquisition systems).

Mini PC

Latest AI processor; Rich functions; Fast transmission; Space-saving; wireless charge or 2nd screen display optional for Performance requirement, media creativity, light design, games, etc.

Scope of Application

Optimized for moderate gaming, professional design, UHD audio-visual playback. delivers immersive experience.

All-in-One PC

High-definition large screen display, powerful performance configuration, privacy protection design, rich expansion interfaces, and convenient user control. Specifically designed for home entertainment, daily office work, and multimedia consumption, providing efficient computing power and convenient integrated experience, meeting user needs for high-performance display, multitasking processing, and privacy protection, suitable for movie watching, office software operation, and online communication scenarios.

Scope of Application

Suitable for home entertainment centers, small offices, educational environments, and personal studios, balancing entertainment and productivity needs.

All-in-One PC

Features excellent touch control and flexibility, balanced high performance and energy efficiency, multi-scenario applicability, and secure user-friendly design. Specifically designed for efficient office work, creative design, multimedia entertainment, and remote education, providing an integrated high-performance computing experience. Combining large screen display with touch functionality, suitable for document processing, image editing, video conferencing, and home entertainment scenarios, enhancing user work efficiency and immersive experience.

Scope of Application

Suitable for various corporate offices, government agencies, educational institutions (such as school classrooms and libraries), home users, and creative studios, meeting daily use and professional needs across multiple scenarios.

10.95 inch Tablet

Product Use: 1. Entertainment & Media (video/gaming/reading/music) 2. Mobile Office 3. Learning & Education 4. Communication & Social Networking

Target Users: General Consumers/Children/Office Workers

Functional Highlights

- PD Fast Charging/AG Screen/Keyboard Support

Technical Parameters

- Key Parameter 1: CPU MT8786 4GB(RAM)+64GB(ROM)
- Key Parameter 2: LCD 1920*1200 AG+AF
- Key Parameter 3: 3.8V/8000mAh Battery
- Key Parameter 4: Front Camera 5M, Rear Camera 8M

Product Advantages

- Equipped with octa-core CPU + 4GB RAM + 64GB ROM, it runs multitasking office work, audio-visual entertainment and educational apps smoothly, meeting daily high-efficiency needs.

11.97-inch Tablet

Product Use: 1. Entertainment & Media (video/gaming/reading/music) 2. Mobile Office 3. Learning & Education 4. Communication & Social Networking

Target Users: General Consumers/Children/Designers/Office Workers

Functional Highlights

- High Refresh Rate/PD Fast Charging/AG Screen/Keyboard Support/Stylus Support/Large-Capacity Battery/HD Camera

Technical Parameters

- Key Parameter 1: CPU MT8781, 6GB(RAM)+128GB(ROM)
- Key Parameter 2: LCD 2000*1200 AG+AF
- Key Parameter 3: 3.85V/10000mAh Battery
- Key Parameter 4: Front Camera 5M, Rear Camera 13M

Product Advantages

- Octa-core CPU + 6GB RAM + 128GB ROM, easily handles high-load scenarios like large games, delivering flagship-level response speed.

Monochrome Laser Printer

Compact, sleek design, high-end config, small yet powerful. It supports mobile network setup, driver-free printing, multi-system compatibility. The series meets various printing volume needs.

Scope of Application

Suitable for SOHO offices, SMEs, party/government agencies, home users, individual consumers, etc.

Color Laser Printer

High-quality color output, compact, easy to integrate, stable/durable. It supports auto duplex, efficient office work, multi-system compatibility. for high-load monochrome/color document printing.

Scope of Application

Suitable for enterprise customers, government agencies, SMEs, etc.

Mono Laser multi-function printer

Compact, sleek design, high-end config. It supports driver-free printing, multi-system compatibility, print/copy functions. rich models with multiple options.

Scope of Application

Suitable for home users, individual consumers, SOHO offices, SMEs, government agencies, etc.

Color Laser Multifunction All-in-One

Color printing, color copying, scanning, wired network. Used for high-load volume monochrome and color document printing.

Scope of Application

Suitable for Enterprise customers, government agencies, small and medium enterprises, etc.

High-end OLED TV integrates advanced display tech, B&W immersive audio, 4-sided Ambilight and comprehensive smart functions—an excellent choice for movie lovers and gamers. It has also won various design awards.

OLED+4K Ambilight Smart TV

Picture Display

- OLED Panel with META 2.0 Technology
- 8th-Gen P5 AI Dual-Engine Processor
- Ambilight Plus Technology
- HDR: Dolby Vision, HDR10+ Adaptive, IMAX Enhanced
- A.I. PQ Mode
- CalMAN Calibration
- IMAX Enhanced Certification

Gaming Functions

- Optimized for gaming: Supports G-sync compatible and FreeSync
- Low Input Lag
- Gaming Menu

Audio Performance

- Bowers & Wilkins 5.1.2 Audio System
- Supports Dolby Atmos, DTS:X, AI Equalizer and DTS Play-Fi

Smart TV Functions

- Google TV System
- Integrated Smart Home Apps: Matter and Control4

The Xtra 4K Quantum Dot MiniLED Ambilight Smart TV

Picture Display

- Quantum Dot MiniLED
- P5 Engine Processor
- 3-Sided Ambilight Function

Gaming Functions

- Optimized for gaming: Supports G-sync compatible and FreeSync Premium
- Low Input Lag
- Gaming Menu

Audio Performance

- 2.0 Audio System
- Supports Dolby Atmos, DTS:X, AI Equalizer

Smart TV Functions

- Titan System
- Integrated Smart Home Apps: Matter and Control4

The One 4K Ambilight Smart TV

Picture Display

- 4K Ultra HD LED
- P5 Engine Processor
- 3-Sided Ambilight Function

Gaming Functions

- Optimized for gaming: Supports G-sync compatible and FreeSync Premium
- Low Input Lag
- Gaming Menu

Audio Performance

- 2.0 Audio System
- Supports Dolby Atmos, DTS:X, AI Equalizer

Smart TV Functions

- Titan System
- Integrated Smart Home Apps

Smart Projector

Small size, large screen, home smart terminal field, network connectivity, mobile connectivity, information display, transmission and sharing applications.

Product Use: For home environment and smart TV **Scope of Application:** home user environment

Smart Projector

Comprehensive auto-functions: auto-focus, auto-keystone correction, auto-obstacle avoidance, auto-screen alignment. Designed with a built-in base, P30 NF rotates 360 ° quickly for a "lie-flat" large-screen experience. Officially licensed by Netflix, it supports overseas OS for rapid promotion.

Scope of Application

Suitable for home (bedroom, study, living room, etc.) and office environments.

Smart Projector

Comprehensive auto-functions: auto-focus, auto-keystone correction, auto-obstacle avoidance, auto-screen alignment. Designed with a built-in base, W1 rotates 180 ° quickly for a "lie-flat" large-screen experience, with built-in 2K dongle.

Scope of Application

Suitable for office, home (living room, bedroom, study), and commercial (apartment, hotel) scenarios.

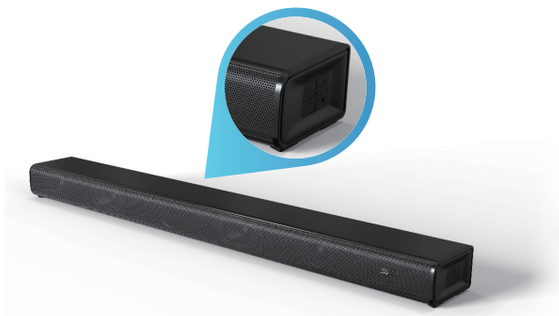

Soundbar Speaker

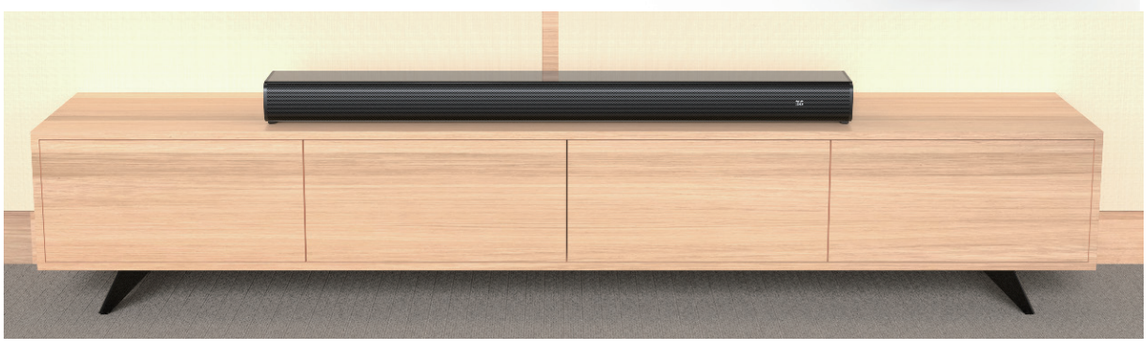

Minimalist design, great sound, easy wired/wireless connection, built-in wall mount for flexible placement.

Scope of Application

Can be paired with TV for music playback, suitable for home use.

Outdoor Portable Speaker

Minimalist design, rich bass with stunning sound, easy wired/wireless connection, beat-synced dynamic lights, 8-hour continuous playback.

Scope of Application

For home or outdoor music playback, suitable for home or outdoor use.
